

OLD MARKET BUILDING – LOVE IT or HATE IT! Invitation to have your voice heard and get involved! Can you spare 5 mins? The old market building is unique and part of the history of Coalville. With the upcoming closure of the building, the new purpose of the space is in constant debate. There are people who are interested in repurposing this building to create a multifunctional events space, with community ownership and enterprise at its heart – like a mini NEC in the centre of Coalville. With any surpluses generated being recirculated back into the community to be spent as decided by the community!

In order to do this, we are interested in finding out peoples views, what people are bothered enough about to take action and to connect like minded people to help make it happen! Interested? Complete this survey.
